# DEDICATION

PAUL B. COMER, M.D.

ROBERT L. GIBSON, M.D.

Drs. Comer and Gibson have exemplified the true meaning of physicians as teachers. They have strived to educate us as concerned physicians. Their high standards of patient care is evident in their concern for the patient as a person. They are always available to us with honest answers and sound advice. In recognition of their efforts, the Class of 1978 is proud to dedicate this yearbook to them.

## CLINICAL FACULTY TEACHING AWARDS

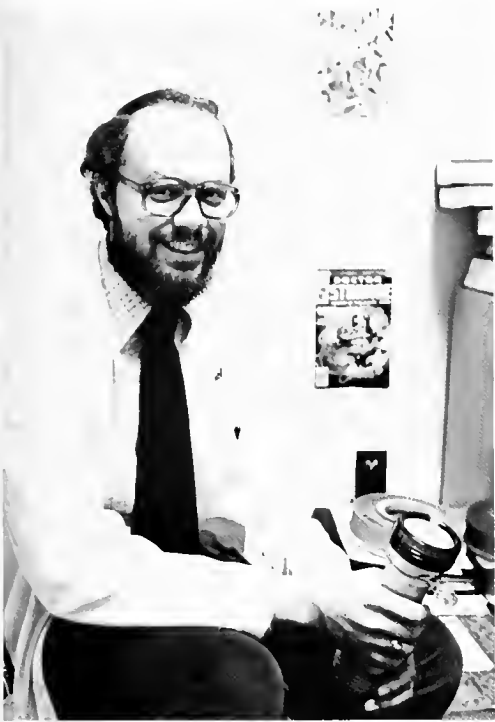

Dr. Skinner has taught by example a rare quality in a physician: Work enthusiastically as a clinician and educator but "every day, do something nice for yourself".

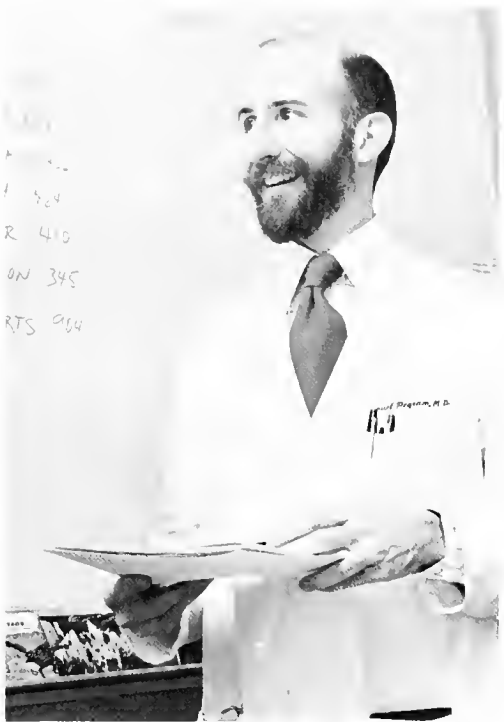

Dr. Friedland is both a scholar and a down to earth educator. He is competent in several subspecialty fields and yet is excited by helping a clinical clerk grasp a basic facet of Radiology.

HOUSE OFFICER TEACHING AWARDS

Ralph Caruana, M.D.

Samuel Pegram, M.D.

The House Staff has always been an integral part of our medical education. During our clinical years, Drs. Caruana and Pegram have excelled as teachers and colleagues. their interest in teaching has been a great benefit to all those who have worked with them. The Class of 1978 is proud to acknowledge their efforts with this teaching award.

"The best Christmas party is Bill Edwards."

"Heart Station is a year round party!"

"Now this is a party!"

"Pediatrics is never a party."

"The biggest nose I ever saw ... except my husband's."

"I'm researching the secret ingredient in Bill's punch."

"My lab has nice warm yellow punch year round."

"Q.E.D.: I have proven that a large brain correlates with a large nose."

"Hell, that's nothing new."

"Left holding the bag again"

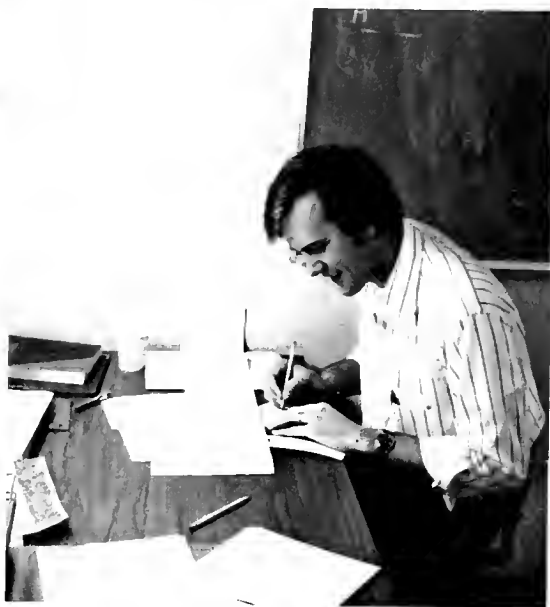

"I'm practicing for Internal Medicine — metabolic rounds."

"Try that again and I'll punch right in the fist with my face!"

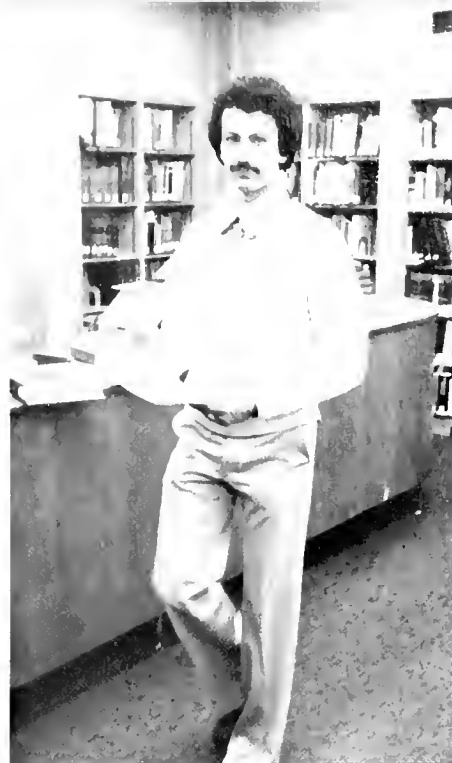

"I'm not afraid to tell you, Rick. There's garlic on your breath."

"This is so easy a 5-year old could do it. Quick, find me a 5-year old!"

Minutia rounds

"Have you tried the gluten free diet?"

"I bought this bicycle when they tarred Main Street in Piekens."

'Aww, Dr. Westmoreland, I'll bet you say that to all the girls.'

"Dr. Simon says you have to get well STAT!"

"I just finished 11,000 hours of audio-visuals."

"Sorry, no room in the class of '78 for you either."

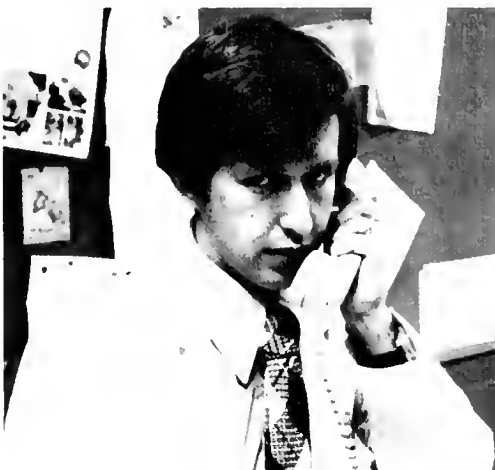

"I wish those damn doctors would stop calling us and let us do our work."

"Page Dr. Scuderi right away!"

"Operator, I'm answering Dr. Scuderi's pages ..."

"... He said he was going to the O.R."

... Dr. Hacksaw ... Dial Obturator ...

... Dr. Mutter, Dr. Pearl Mutter ...

# IN MEMORIAM

James E. Chapman, M.D.

Dr. Jim Chapman left immeasurable influences on my life, and he epitomized successful clinical medicine despite a leukemia burden. Jim was never too busy to help, strengthen, and encourage. His devotion to God, family, patients and practice will always be remembered. He knew life was meant to be lived to its fullest, and he achieved that, despite only thirty years, by unflinching participation in scholarship and recreation coupled with inexhaustible optimism. Jim loved the joy of helping birth new life and he carried the same zeal for the tennis court and his Alma Mater. Though he is dearly missed by those he encountered, his allegiances to family and clinical Obstetrics and Gynecology have molded unforgettable bonds. God indeed blessed us by his presence.

John L. Chapman  
Class of 1979

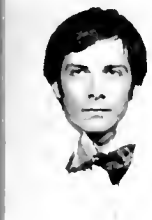

Stephen K. Garrison, M.D.

The eternal romanticist who enjoyed life to the fullest, was supremely confident in all endeavors, and did nothing in moderation. He lived life with unsurpassed intensity and flair. Steve's philosophy was as flamboyant as his life style. His favorite quotes included: "You can never be too rich or too thin." On the golf course, "It doesn't matter where you hit the ball, it's how you look on the tee." Steve Garrison was a delightful person to know and love.

Some of us have been fortunate enough to share our lives and experiences at Bowman Gray with some very special people. Our spouses and special friends have

helped us through some of the difficult times of our education and made our efforts worthwhile. To all of these people, our sincerest appreciation.

# A GOOD EDUCATION IS SOMETHING YOU CAN ALWAYS BANK ON.

It's the basis for everything you'll do and be for the rest of your life. The cornerstone of your career, and the foundation of your future. And a good education is more important today than ever before. At First Union, we know that it's hard work.

But we know too, that nothing good comes easy.

**FIRST UNION CONGRATULATES THE CLASS OF '78.**

# Your best move.

From convenient Smith Reynolds Airport to New York, Atlanta, Washington and other cities. When you really want to keep your business moving, your best move is flying Piedmont Airlines. Piedmont's jets and efficient propjets can have you on the scene fast. And that's the kind of smart move that can make for good business as well as just plain good times. For information and reservations, call Piedmont in Winston-Salem, 768-5171, or your travel agent. Major credit cards accepted.

## ACKNOWLEDGEMENTS AND LAST TURN OF THE KNIFE

The Staff of the 1978 GRAY MATTER would like to extend our thanks to the following people for their help, encouragement and understanding which helped to make this book possible: To Wilma Mathews from the Department of Information for her unending patience, encouragement, support and for not hanging up on us every time we called — God only knows who will ever be able or willing to take her place; To Jack Dent & Paris Kirkland for their excellent photographic processing and dependable cooperation; To the Department of A-V Resources for their combined efforts; To our wives Terri, Annette, and Donna for tolerating our long hours away from them; To Dot Steil for helping us graduate, To Geri Peavy for her help during our first years here; and to the Medical School Administration, faculty, house staff and our parents for supporting our efforts. Lastly, to Frank Moyer for his uncanny ability to write "cut lines" & to whom all libel suits should be directed.

To the following, our Last Turn of the Knife: B. Edwards for his Yuletide punch that decked the halls & all of us; D. Maynard who told us that we were here because we could run faster than a speeding bullet; The food service for proving Doc Maynard was right; J. Tolmie for CPR, a shoulder to cry on, helping us match & excusing our absence from our present rotations; W. Bo for nearly making cadavers out of us; "Hands" Krueger for his technique for dissection which made Anatomy gross; C. McCreight for his vivid descriptions & anatomy party; I. Miller who still isn't sure where taste comes from; C. Strittmatter and the man who pushed his smile button; S. Pearson whose button never got pushed; A. Birch for his horns; P. Comer & R. Gibson for sensational teaching & genuine concern; "Fonzie" DeChatalet for our first Nobel Prize; R. Discker and his debriefing sessions; J. Edmonds for trying to make "Deaconmania" a senior requirement; J. Philp for his "Islands of Knowledge" & making us wish we had gone to Law School; J. Hennessy for bringing "Baretta" to Bowman-Gray; C. McCall & his "Mighty Macrophages"; N. Skinner a truly dedicated teacher; N. Smith for giving one of us a second chance; "Coach" Groves for making us write as fast as he talked; "Heavy Duty" Drexler the "PHAGE" of Micro; S. Richardson for Montazumas' Revenge; Q. Myrvik for Micros' revenge; "Wild Bill" McKinney & his role as the "Rev. McKinney"; J. B. Smith & his seizures; F. Greiss for letting Gordon play with his sheep; L. Nelson for K.C.; J. Fishburne for taking the pain out of OB-GYN; R. Pritchard master of dead-pan wit; J. Hartz for his handouts that no one read; A. Trillo for leetle foot processes, beeg glomeruli & Breegetts; M. Scharjl the detective of Pathology & his role as "Double O Slab"; J. Simon for making us sweat in mid-winter; H. O. Goodman for his "jeans"; R. Patterson for being human; "Dad" Levitt for making us proud of him; O. T. Wendel for overdosing us; W. P. Stratten a "GAP" that will never be filled; J. Rogers for making us thirsty; R. Janeway a real rascal; I. Meschan a Gentleman & a Scholar; D. Moody for his dirty X-Rays; G. Friedland for his dedication & elegance; The Whitleys' for their spaghetti dinners; "Evel Knevil" Hightower who can ride his motorcycle when most of us can't stand to be in a cold car; the "HUD" for lessons in eloquent profanity; P. James for  $\frac{4w+7}{90+w}$  & "Bald is Beautiful"; T. Pennell & "ALL that goes with it"; J. Meredith a surgeon of the skin & its contents; S. (Fulk) Eisenhauer for her skin & its contents; G. Poehling for his helping hand; G. Rovere and his license plate; and W. Ward & his allergy shots. We intend no offense to any of the above and extend our sincere gratitude to all those who guided us through our first four years of medical education.
